Mobile Phones and Media Players We've Tested So Far...

Here is a sample of mobile phones and media players we have tested to work with the latest version of SYNC. New mobile phones and media players are introduced frequently and some mobile phones and players have not been tested yet. Although your Bluetooth enabled mobile phone or media player may not appear here, it may work with SYNC. For a frequently updated list of mobile phones that work with your vehicle, view [Mobile Phones We've Tested So Far](#).

Devices are tested against the latest version of SYNC software available at that time. Be sure your SYNC is up-to-date. For instructions please view [Can I update or enhance SYNC?](#) For more information about phone testing, see [What does SYNC-Certified Mean?](#)

Note: Listing of specific phones, service providers, and media players is intended to show the technical compatibility of the phones with SYNC. It does not imply a relationship between Ford Motor Company and the mobile phone manufacturers, service providers or the media player providers.
